This note is to provide an update on the presumptive positive COVID-19 Case in Knox County.

- A person in the Crofton Community Jr/Sr High School system who was in close contact with the presumptive positive COVID-19 case is now being tested out of an abundance of caution.
- More may be tested in the future. If additional risks are identified, NCDHD will release this information publicly and work with those effected.

If you believe you were exposed and experiencing symptoms, contact the NCDHD office at 402-336-2406 and please self-quarantine (stay home and away from others) and follow instructions from public health. We ask that you cooperate with public health in order to limit spread of any further disease.

**Steps to prevent spread of flu and the common cold will also help prevent coronavirus:**
1. **Stay home when sick.**
2. Wash hands frequently with soap and water for at least 20 seconds. If soap and water is not available, use an alcohol-based hand sanitizer.
3. Cover your nose and mouth with a tissue when you cough, or sneeze then throw the tissue in the trash.
4. Ensure frequent cleaning and disinfection of frequently touched objects and surfaces.
